DETAILED ACTION

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

As per claims 1, 11, 18, and 119, the closest prior art of record Davis et al. U.S. Patent 6,105,008 and Camp et al. U.S. Patent 6,076,078 taken either individually or in combination with other prior art of record fails to teach or suggest electronic payments between a consumer and merchants without the involvement of a credit or money disbursing institution, e.g., a bank or a credit union, (creditor)

The specific allowable feature, which distinguishes the present invention over the prior art, is ascertaining during a transaction with a merchant, an amount paid by the consumer to a previous merchant by polling the previous merchant to obtain the amount. The previous merchant being an entity distinct from the clearing server/creditor.

Claims 2-9, 12-17, and 20-27 are respectively dependent upon Claims 1, 11, and 19 and thus have all the limitations of claims 1, 11, and 19 and are allowable for that reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
